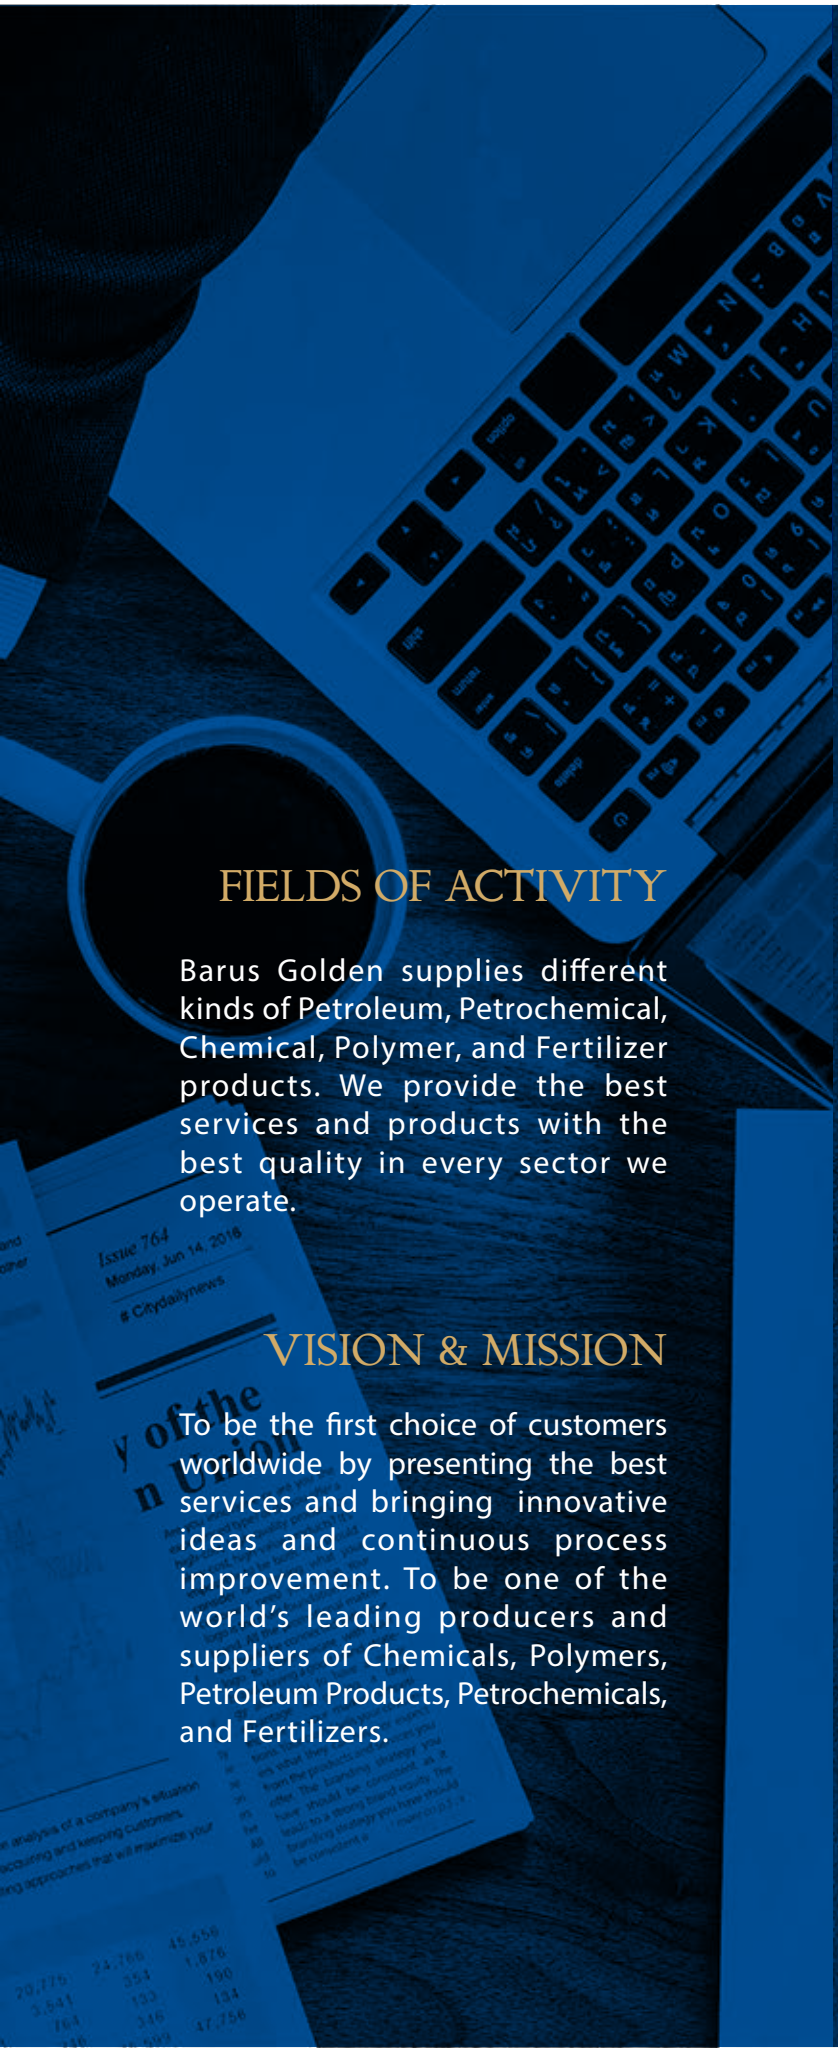
ABOUT US

Barus Golden deals in supplying and trading of different kinds of Petroleum Products, Petrochemicals and Polymers. This Company has over 10 years of brilliant background in the field of international trade and is fully operative in Europe, Asia and Africa. Barus is one of the major activists in the area by exporting different commodities to European countries, South East countries like China, Malaysia, India, CIS countries, Persian Gulf countries, Arabian countries and African countries. With the extensive range of quality products and delivery system that is responsible, reliable and relevant to today's fast-moving business landscape, BARUS provides simple, yet effective solutions meeting the client's exacting demands worldwide. Due to years of operations.



FIELDS OF ACTIVITY

Barus Golden supplies different kinds of Petroleum, Petrochemical, Chemical, Polymer, and Fertilizer products. We provide the best services and products with the best quality in every sector we operate.

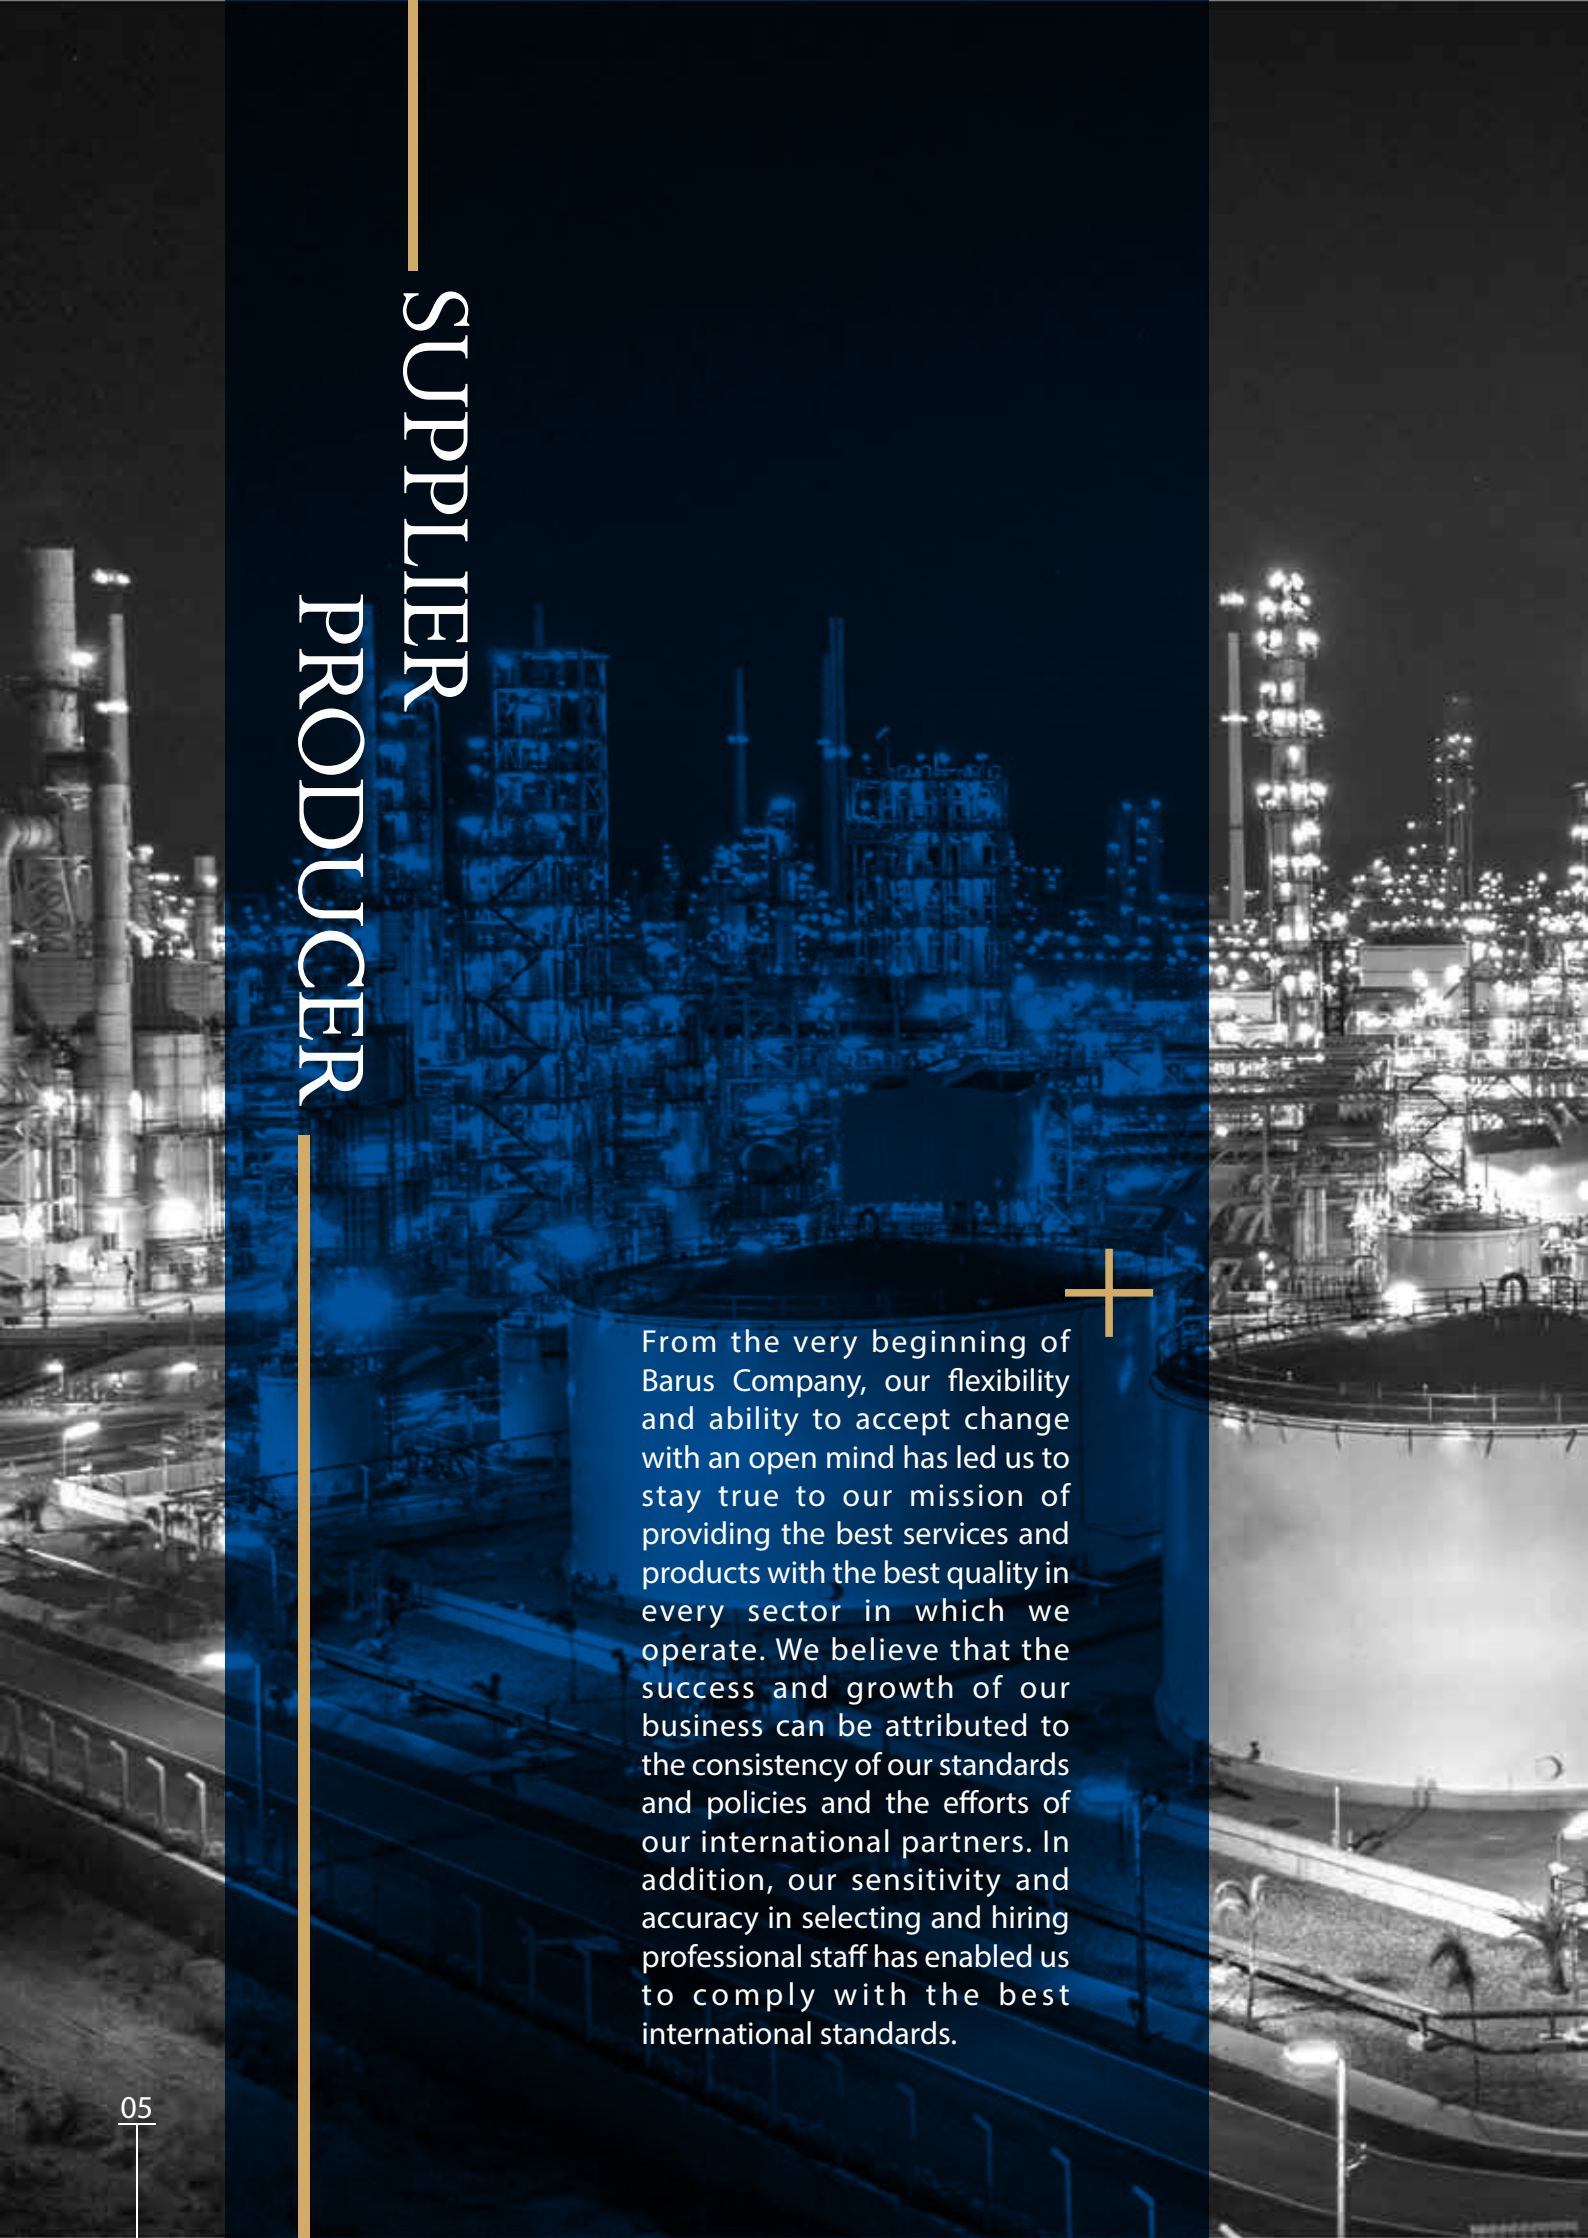
VISION & MISSION

To be the first choice of customers worldwide by presenting the best services and bringing innovative ideas and continuous process improvement. To be one of the world's leading producers and suppliers of Chemicals, Polymers, Petroleum Products, Petrochemicals, and Fertilizers.

PROCUREMENT & DELIVERY

END TO END SUPPLY CHAIN MANAGEMENT

QUALITY CONTROL



SUPPLIER
PRODUCER

From the very beginning of Barus Company, our flexibility and ability to accept change with an open mind has led us to stay true to our mission of providing the best services and products with the best quality in every sector in which we operate. We believe that the success and growth of our business can be attributed to the consistency of our standards and policies and the efforts of our international partners. In addition, our sensitivity and accuracy in selecting and hiring professional staff has enabled us to comply with the best international standards.

PETROLEUM PRODUCTS

Petroleum products are materials derived from crude oil (petroleum) as it is processed in oil refineries. Unlike petrochemicals, which are a collection of well-defined usually pure organic compounds, petroleum products are complex mixtures. Most petroleum is converted into petroleum products, which include several classes of fuels.

According to the composition of the crude oil and depending on the demands of the market, refineries can produce different shares of petroleum products.

Our Petroleum products are as follows:

Base Oil

Bitumen

Paraffin Wax

PETROCHEMICAL & CHEMICAL PRODUCTS

The leading products in high demand are Chemicals and Petrochemicals. Both of them are the most essential products worldwide. They are used in many different industries, including Cosmetics, Detergents, Automobiles, and Food.
Our Petrochemical and Chemical products are as follows:

- Monoethanolamine (MEA)
- Diethylene Glycol (DEG)
- Mono Ethylene Glycol (MEG)
- Diethanolamine (DEA)
- Triethylene Glycol (TEG)
- Ethylene Dichloride (EDC)

PETROCHEMICAL & CHEMICAL PRODUCTS

- Caustic Soda (Sodium Hydroxide)
- Melamine
- Sodium Bicarbonate (Baking Soda)
- Urea (Technical Grade)
- Soda Ash (Sodium Carbonate)

POLYMER PRODUCTS

A polymer is a large molecule that is formed by connecting several monomers to each other and forming long chains. The word polymer is of Greek origin and is composed of the word "poly" meaning several and "mer" meaning part Polymers are widely used in many industries, including Automobile, construction, packaging, textile, accessories Household, health and pharmaceutical, electric and electronic, Agriculture, military, sports equipment, transportation, etc.
Some of our Polymer products are as follows:

- LDPE
- LLDPE
- MDPE
- HDPE
- PP-homopolymer
- PP-copolymer
- PP-Randomcopolymer

POLYMER PRODUCTS

- ABS
- EPS
- GPPS
- HIPS
- PC
- PET
- PBR
- PVC
- Compound Polymers

FERTILIZER PRODUCTS

Synthetic fertilizers are best known for being fast-acting and for coming in a variety of forms such as liquid, pellet, granule, and powder. Synthetic fertilizers are water-soluble and can be taken up by plants almost immediately, this provides a quick-hit of nutrients and rapid greening.
Our Fertilizer products are as follows:

- Urea (Prilled & Granular)
- Potassium Sulfate
- Sulphur Nitrogen
- NPK (Nitrogen, Phosphorus, and Potassium)
- Urea Ammonium Nitrate (UAN)
- Ammonium Sulfate (Powder & Granular)
- Granular Sulphur
